www.RhinoProducts.co

For over 15 years Rhino Products have continually invested in modern engineering and design technology, setting the standards and evolving in to the leading European manufacturer of commercial van accessories.

Our aim is simple, to provide products with our guiding principles; innovation, strength, excellence at their core, and above all are safe and functional.

Introducing the

TowBar™ & SafeStep™

TowBarTM

Designed exclusively for commercial vehicles, the TowBar range has been fully engineered from the ground up. Each TowBar is finished with a high corrosion resistant two part paint process that has been tested to the automotive industry standard of over 1000 salt spray hours, ensuring maximum durability and protection.

- Type Approved VCA Certified and Tested to the latest UNECE Regulation 55
- Coated in an electropaint black undercoat with a polyester powder top coat to ensure maximum corrosion resistance
- Fully bespoke electrical kits available separately with 13 pin socket wired for 8 points including reverse light, to meet the latest requirements
- Fixed TowBars come complete with a Towball, and Towball cap
- Quick and easy to install
- Clear and concise fitting instructions
- User manual
- Other towing attachments including Ball and Pin and Jaw and Pin are available separately
- Lifetime guarantee

*Always refer to the vehicle's manufacturer handbook for maximum towing capacity

SafeStep™

The SafeStep combines a solution for areas surrounding Health & Safety, when loading/unloading roof mounted equipment or gaining access in or out of a vehicle. Additionally the SafeStep can provide drivers with peace of mind with optional reversing sensors by an audible warning of objects that are out of sight.

A bespoke design per vehicle means each SafeStep is set to the most optimum height and complements the aesthetics of the vehicle.

- Coated in an electropaint black undercoat with a polyester powder top coat to ensure maximum corrosion resistance
- One person easy fit
- Clear and concise fitting instructions
- Available in Black or Yellow
- Available with reversing sensors
- Twin or Triple options (Depending on vehicle model)
- TUV Approved
- Safety reflective tape standard on each step
- Anti-slip plastic tread plates (non-slip even in wet/frozen conditions)
- Manufactured from a steel frame
